74523 Schwäbisch Hall
Germany

Location

Scope

227617
OPTIMA consumer GmbH
Geschwister-Scholl-Straße 89
74523 Schwäbisch Hall
Germany

Design, sale, manufacturing and servicing of filling and closing machines for the food, chemical and cosmetic industry; single systems and turnkey projects. Cleaning, dosing and closing as central functions. The product portfolio is completed by film treatment, cartoning, as well as automation and handling techniques together with control and barrier systems.

004831
OPTIMA pharma GmbH
Otto-Hahn-Straße 1
74523 Schwäbisch Hall
Germany

Design, sale, manufacturing and servicing of machines and complete turnkey systems for cleaning, sterilizing, filling, closing and assembly of pre-filled syringes, vials, bottles, carpules and special containers for the use of liquid and viscous pharmaceutical products. Sterilizable freeze-drying systems, loading and unloading systems for vials, ampules, syringes or bulk loading as well as cleanroom technology complete the product portfolio.

278657
OPTIMA life science GmbH
Kolpingstraße 23
74523 Schwäbisch Hall
Germany

Design, sale, manufacturing and servicing of combined manufacturing and packaging machines for medical and pharmaceutical products. Modular liquid coating systems, for example immunoassays, which may contain functions like dispensing, incubing, coding, code identification, ionization, suction and packaging. In the converting area, modular systems for the manufacturing and packaging of modern wound dressings are produced. Typical functions are unwinding, rewinding, cutting, web edge control, camera systems and the packaging of four-edge seal pouches.

Location

Scope

**371983
OPTIMA pharma GmbH
Vor dem Langen Loh 8
35075 Gladenbach-Mornshausen
Germany**

Design, sale, manufacturing and servicing of machines and complete turnkey systems for cleaning, sterilizing, filling, closing and assembly of pre-filled syringes, vials, bottles, carpules and special containers for the use of liquid and viscous pharmaceutical products. Sterilizable freeze-drying systems, loading and unloading systems for vials, ampules, syringes or bulk loading as well as cleanroom technology complete the product portfolio.

**490340
OPTIMA manufacturing GmbH
Steinbeisweg 20
74523 Schwäbisch Hall
Germany**

Manufacturing of parts as well as assembly of modules and components for filling and packaging machines, particularly for all companies of the Optima Packaging Group.

**531482
OPTIMA materials management GmbH
Alfred-Leikam-Straße 36
74523 Schwäbisch Hall
Germany**

Administration as well as planning and steering of the material flow within the Optima Packaging Group (materials management), regarding timing, quantities, spaces and costs. This also includes the processes and projects which target the complete supply chain entity.

**278653
OPTIMA nonwovens GmbH
Steinbeisweg 20
74523 Schwäbisch Hall
Germany**

Design, sale, manufacturing and servicing of packaging machines for sanitary nonwovens products. After infeeding of the product from the converters to the pallet ready to ship, the machines build product formations and pack them into plastic bags or folding boxes (primary packaging). Machines with grouping units for multipacks made of plastic or packed into cartons (secondary packaging). Palletizers form units ready for shipment (tertiary packaging) out of the secondary packaging units.
